TERMS AND CONDITIONS OF SALE

PRICES. Five and fifty of the same variety and size at the ten and one hundred rates respectively.

TERMS OF PAYMENT. Cash with order. We have no credit or collecting department.

PACKING CHARGES. At cost. The following is the schedule of box, and crate charges:

	1-3 ft.	3-6 ft.	6-7½ft.
30 x 30 inches or 900 sq. inches-----	\$.55	\$ 1.10	\$ 2.20
24 x 30 inches or 720 sq. inches-----	.50	1.00	2.00
24 x 24 inches or 576 sq. inches-----	.45	.90	1.80
18 x 24 inches or 432 sq. inches-----	.40	.80	1.60
18 x 18 inches or 324 sq. inches-----	.35	.70	1.40
15 x 15 inches or 225 sq. inches-----	.30	.60	1.20
12 x 12 inches or 144 sq. inches-----	.25	.50	1.00

Larger or smaller boxes or crates will be charged in proportion to above schedule.

There is no packing charge on bulk car or truck load.

TRANSPORTATION RISKS. We will select what we consider the most practical carrier unless you specify carrier you wish us to use in shipping to you. Our responsibility ends upon delivery in good order to carrier. Remedy for loss must lie between the buyer and the carrier, but we will gladly render all the aid that we can.

CLAIMS. All claims for damages must be made on receipt of plants.

QUOTATIONS. All quotations are for immediate acceptance and subject to stock being sold. This price list cancels all previous quotations and the prices quoted herein are subject to change without notice.

LIABILITY. All bookings are without liability to us should injury befall stock from frost, hail, fire or other cause beyond our control, and subject to the standard form non-warranty clause which reads: "We give no warranty, express or implied, as to description, name, quality, productiveness, or any other matter, of any nursery stock, seeds, bulbs, or plants we sell."

COME TO SEE US.

We invite you to visit our Nursery (10 miles South of Mobile on U. S. 90) and inspect our stock. Bring your truck with you. We can save you money. We have had a fine growing season, plenty of rain, our stock is fine, and we solicit a share of your business.

CAMELLIA JAPONICA VARIETIES

NEW CAMELLIA INTRODUCTIONS

DAIKAGURA

Gorgeous rose pink double loose peoniform, petals interspersed with stamens, large flower, blooms very early in the season, (late September and October) and sets buds when young. Wide large dark green leaves. Rapid grower. This is the earliest to bloom of the Camellias, and in addition is so outstanding, that every collector should have one or more. It almost has to be seen to be appreciated. This is the one variety of Camellia that you can be certain to obtain full benefit from the marvelous blooms without any danger of the cold hurting the buds, as the flowers come before the cold weather arrives. We have only the one size to offer this season.

18-24 inch, lath-house grown (Branched) B & B ---\$15.00 each.

QUINTUPLET (Five-in-One)

White with dashes of red; shell pink with dashes of purple; solid red with center petals sometimes twisted; pink and light red variegated with margin of white on end of petals; solid creamy white. All five colors or types of blooms on same bush. Large semi-double flower with stamens, blooms in mid season and sets buds when young. Wide large dark green handsome foliage. Compact bushy grower and very thrifty. An opportunity for every Camellia grower or nurseryman. The brilliance and variety in color of this magnificent variety assures it of being planted in an honored place in every garden.

Lath-house grown, single stem, B & B

With Bud

12-15 inch	-----	\$2.00	each	\$3.00
15-18 inch	-----	2.50	"	4.00
18-24 inch	-----	3.00	"	5.00

THREE-IN-ONE

Pink; shell pink; and pink variegated. All three colors or types of blooms on the same bush. Large semi-double flower with stamens. Blooms in mid season, and sets buds when young. Wide large and glossy green leaves. Some leaves are beautifully variegated, thus making the foliage itself most attractive and ornamental even when this variety is not in bloom. Spreading and rapid grower. This is a variety which every collector should have and which he will always appreciate. The delicate shading of the flowers makes this variety especially desirable.

Lath-house grown, single stem, B & B

With Bud

42-48 inch	-----	25.00	"	

EXTRA SPECIAL CAMELLIA VARIETIES

ALBA PLENA

Pure snow white, large very double imbricated flower with no stamens. Blooms very early in the season. Long narrow pointed leaves, and some leaves beautifully variegated. Compact grower. This is the finest of the whites, and the one most in demand, and at the same time the one most

scarce. We have therefore given Alba Plena special attention, and we believe we can supply your calls for this exquisite variety to better advantage than any one else, even up to 42-48 inch field grown specimen plants. Specimen plants quoted on request. The perfect and symmetrical flowers are breath-taking in their beauty. Since its introduction this variety has been the most desirable of all the Camellias for cut flower purposes. We are very proud of our Alba Plenas and you will be pleased with them.

CHEERFUL (Dark)

Little darker in color than Pink Perfection. Full double medium size flower, with an occasional flower having stamens. Blooms early in the season and sets buds when young. Medium size thick dark green glossy leaves. An erect and rapid grower. The stateliness of the erect compact growth of this variety makes it the most formal appearing of all the Camellias, and the flower is in the preferred class. When perfectly matched pairs are planted the impressive formality of them is striking beyond a word description. Scarce. We have a few nice specimen plants.

GOVERNOR MOUTON

Oriental red marked with white splotches. Somewhat of peoniform medium size flower having petals mixed with few stamens. Blooms in mid season and sets buds when young. Medium size light green leaves. A most strikingly attractive type.

LADY SAUMEREZ

Pleasant cherry red with white splotches. Medium size semi-double flower with stamens. Blooms early in the season and sets buds when young. Has sharply pointed glossy green leaves, and is an erect grower.

LADY VANSITTI

Deep red medium size semi-double flower with stamens. Blooms early in the season and sets buds when young. Has narrow pointed dark glossy green leaves, and is an erect grower. This is the third variety that every collector will want to go with one or both of the previous two. The exotic beauty of this variety will assure it a warm reception by all Camellia lovers.

PROF CHAS. S. SARGENT

Crimson large size peoniform flower with no stamens. Blooms in mid-season and sets buds when young. Large roundish thick glossy green leaves. Compact and rapid grower. Blooms over a long period, and it is the outstanding variety of this type. Everyone wants a Sargent who sees one.

SOPHIA

Deep rose pink blotched sometimes with white. Large peoniform flower with no stamens. Early and heavy bloomer and sets buds when young. Medium size roundish light green leaves. A truly striking variety.

WHITE FORM OF TRICOLOR (Leucantha)

Beautiful white large semi-double flower with stamens. Blooms in mid-season and sets buds when young. Narrow shiny light green leaves. An erect and rapid grower. The beautiful yellow stamens against the background of pure white causes us to run out of each size of selling stock of this variety each year, when the customers see them in bloom. Many say that they think it prettier than even Alba Plena. We do not agree with them, but we agree that it is beautiful. Since it follows Alba Plena in its blooming period, it can take the place of the Alba Plena when the Alba Plena has finished blooming, and therefore does not have to compete with the Alba Plena.

PRICES ON THE ABOVE EIGHT EXTRA SPECIAL VARIETIES:

Lath-house grown, single stem, B&B Each		10	100
8-12 inch	-----\$.60	\$ 5.00	\$40.00
12-15 inch	----- .75	6.50	55.00

18-24 inch	----- 1.25	11.50	105.00
Lath-house grown, branched, B & B			
15-18 inch	-----\$ 2.25	\$20.00	\$175.00
18-24 inch	----- 3.00	27.50	250.00

Prices on sizes larger than listed and on field grown specimen plants quoted on application.

SPECIAL CAMELLIA VARIETIES

BROOKLYANA

Deep pink mottled with white, very double medium size flower with no stamens. Blooms early in season and sets buds when young. Large thick light green leaves. Compact and vigorous grower. The exotic beauty of these blooms make this a preferred variety. We have a few fine specimen plants from 3 to 5 feet.

CHANDLERII ELEGANS (Pride of The Emperor's Garden)

Deep rose pink blotched with white. Some blooms solid deep pink. On some flowers pink will predominate while on others white. The formation of the flowers sometimes varies to a great degree. Large pompon peoniform bloom interspersed with stamens. Blooms in mid-season and sets buds when young. Medium size pointed dark green glossy leaves. Compact and rapid grower. The imperial grandeur of this Camellia makes it an essential variety in every garden.

CHEERFUL (Light)

Light rose, or cameo, pink, medium size very double flower with no stamens. Blooms in mid season and does not set buds when young. Roundish light green leaves. Round and compact and rapid grower. Makes an ideally shaped shrub. We have some especially fine specimen plants of this variety up to 5 feet.

DIXIE (Dark)

Rose pink, medium size very double flower with no stamens. Blooms in mid season but blooms sooner than Sarah Frost. Small dark green glossy leaves. An upright and thrifty grower. Most desirable.

GLOIRE DE NANTES (Latifolia; Superbissima)

Deep rose red large size semi-double flower with light yellow stamens, center petals often twisted. Blooms in mid-season, and sets buds when young. Wide large dark green very handsome slightly wavy foliage. Compact and rapid grower.

PINK PERFECTION (Frau Minna Seidel; Hako-Tsuru)

Clear shell pink, medium size very double imbricated and compact flower with no stamens. Blooms early and over a long period and sets buds when young. Very floriferous. Pointed dark green and glossy leaves. Compact and thrifty grower. The dainty delicately shaded pink of Pink Perfection blooms are the personification of elegance. One of the best varieties for cut flowers.

PURITY

Pure white, medium size full double flower with open center and no stamens. Blooms in mid season and sets buds while young. Medium size light green leaves. Rapid grower.

REV. JOHN BENNETT

Orange red, medium size semi-double flower with stamens often twisted with petals. Blooms in mid-season and sets buds when young. Roundish rather small dark green leaves. Erect and rapid grower. We have a few very fine specimen plants.

PRICES ON ABOVE EIGHT SPECIAL VARIETIES:

Lath-house grown, single stem, B & B		Each	10	100
8-12 inch	-----	\$.50	\$ 4.00	\$30.00
12-18 inch	-----	.65	5.50	45.00

36-42 inch	-----	5.50	50.00	

Prices on sizes larger than listed and on field grown specimen plants quoted on application.

GROUP A CAMELLIA VARIETIES

MRS. ABBY WILDER

White with tiny stripes of pink. Medium size peoniform flower with no stamens. Blooms in mid-season and sets buds when young. Narrow pointed light green leaves. Erect and strong grower.

CAMPBELLI NO. 12

Deep rose pink, medium size double flower with few scattered stamens. Blooms in mid-season. Narrow pointed dark green leaves. You will like it. We have a few nice specimen plants.

CANDIDISSIMA

Pure white medium size full double imbricated flower. Blooms in late season and sets buds while young. Narrow pointed light green leaves. An erect and rapid grower. The star shape to the flowers makes it distinctive. This is the white which will give you a continuation of white flowers after the early and mid-season whites have gone.

DIXIE (Light)

Pink, little darker than Pink Perfection, medium size very double flower with no stamens. Blooms late in season and sets buds when young. Wide roundish light green leaves. Compact and rapid grower. We have a few nice specimen plants.

MATHOTIANA ALBA

White, few blooms have pink blotch, and we have occasionally had a delicate pink bloom. Large very double flower with no stamens. Blooms in mid-season and sets buds when young. A compact and rapid grower. Ideal for cut flower purposes.

MOSS POINT RED

Vivid red large double flower, some flowers having a few stamens. Blooms in mid-season and sets buds when young. Wide large dark green leaves. The foliage is extremely handsome. Compact and thrifty grower. The striking color in the bloom, when set off against the magnificent foliage makes this variety one to be desired by everyone. We have a few fine specimen plants up to 4-5 feet.

ROSE EMRY (Christmas Glory; Orientalis; Arajishi; Honneur de Amerique)

Deep rose medium size flower. Some full double. Some peoniform with small sponge center and larger than the full double flowers. No stamens. Blooms early and sets buds when young. Medium to large long pointed dark green leaves. An erect and thrifty grower. We have a few nice specimen plants.

SARAH FROST

Rose red medium size full double rose form flower, petals diminishing in size to the center, giving the bloom the appearance of having depth. No stamens. Imbricated. Blooms in mid-season and sets buds when young. Large round light green very handsome foliage. A compact and vigorous grower. Blooms ideally suited for corsage. The true Sarah Frost is an exceedingly beautiful flower, and the bush is one of the most handsome of all. Every collector will want one.

PRICES ON ABOVE EIGHT GROUP A VARIETIES:

Lath-house grown, single stem, B&B		Each	10	100
8-12 inch	-----	\$.35	\$ 3.00	\$25.00
12-18 inch	-----	.50	4.50	40.00
18-24 inch	-----	.65	6.00	55.00
Lath-house grown, branched, B&B				
18-24 inch	-----	\$ 2.00	\$17.50	
24-30 inch	-----	2.50	20.00	
30-36 inch	-----	3.00	25.00	
36-42 inch	-----	3.50	30.00	

Prices on sizes larger than listed and on field grown specimen plants quoted on application.

GROUP B CAMELLIA VARIETIES

AMERICANA (Maid of Orleans; Countess of Orkney)

Pink and white variegated. Medium size full double flower, which blooms in mid-season and sets buds when young. Very florifirous. Medium size long pointed, some leaves beautifully variegated. A compact and thrifty grower. An exceedingly beautiful Camellia when the buds are not injured by the cold. Buds easily injured by cold. Best suited for growing in green house, and when so handled will provide beautiful and quite distinctive and different blooms for cut flower purposes, as compared to flowers of any other type. We have a few nice specimen plants.

JARVIS RED

Deep blood red, large size semi-double flower with exceedingly beautiful golden yellow stamens. Blooms in mid-season and sets buds when young. Narrow and somewhat crinkled dark green leaves. A spreading and thrifty grower. The strikingly beautiful color combinations possessed by this Camellia make it one that is desired by every grower. The gorgeous deep blood red of the bloom, with the beautiful golden yellow stamens in the center, against a background of dark green foliage is strikingly attractive, and this exact effect can be secured with no other variety. We have a few nice specimen plants.

LADY CAMPBELL (Arnaldo de Brezia)

Dark pink with small white stripes, medium size very double flower with no stamens. Blooms in early season and sets buds when young. Small roundish dark green leaves. An erect and thrifty grower. We have a few nice specimen plants.

NOBLISSIMA

Creamy white medium size semi-double flower, slightly peoniform, with golden anthered stamens interspersed with petaloids near the center. Blooms early and sets buds when young. Roundish light green leaves, and some leaves variegated. A spreading and thrifty grower. We have a few nice specimen plants.

RED CRINKLEY

Rose red, medium size semi-double flower with stamens. Blooms exceedingly late in the season after most of the other varieties are long since gone, and sets buds while young. An erect and thrifty grower. We have a few nice specimen plants.

RED SINGLE

Bright red large single flower with stamens. Blooms late in season and sets buds when young. Large long light green leaves. A compact and thrifty grower. Every garden should have a single red, and this is the one we recommend.

SINGLE VARIEGATED

Pink and white variegated, some blooms solid pink. Medium size single flower with stamens. Blooms early and sets buds when young. Medium size pointed dark green leaves. Bushy compact and strong grower. Have few nice specimen plants. This is the single variegated that your customer will want.

PRICES ON ABOVE SEVEN GROUP B VARIETIES:

Lath-house grown, single stem, B&B			
Each	10	100	
8-12 inch-----	\$.30	\$ 2.50	\$20.00
12-18 inch-----	.45	4.00	35.00
18-24 inch-----	.60	5.00	45.00
Lath-house grown, branched, B&B			
18-24 inch-----	\$ 1.50	\$10.00	
24-30 inch-----	2.00	15.00	
30-36 inch-----	2.50	20.00	
36-42 inch-----	3.00	25.00	

Prices on sizes larger than listed and on field grown specimen plants quoted on application.

CAMELLIA CULTURAL SUGGESTIONS:

The Camellia will grow in practically any well drained soil. We think it prefers a soil slightly acid. An application of Aluminum Sulphate will correct alkalinity. Provide young plants with partial shade for the first three years. In transplanting use liberal quantities of oak leaf mold or peat moss to mix with the soil. Fertilize with well rotted stable manure and a complete commercial fertilizer, such as 6-8-4. During dry periods wet soil to a depth of six inches every few days. Should insects attack the plant consult your County Agricultural Agent who will gladly refer you to the proper party or parties to consult about spraying.

CAMELLIA SASANQUA—SNOW ON MOUNTAIN (Minenoyuki)

Snow white full double flowers. Blooms in October and November, and sets buds when young. Leaves are small and roundish. Spreading and rapid grower. Rapidly gaining in popularity. Branches more slender than Camellia Japonica branches. Valuable as a pot plant and cut flower.

	10	100
12-18 inch, field grown, B & B-----	\$.75	\$ 5.00
18-24 inch, field grown, B & B-----	1.00	7.50

AZALEA VARIETIES

BRILLIANT

Color deep watermelon, intermediate between Pride of Mobile and Pride of Dorking. Has small dark green leaves. Good grower.

ELEGANCE (Peach Pink)

Color of flowers peach pink. Very early, coming when color is really appreciated. Very fast grower.

FORMOSA

Large purplish pink flowers. Large dark leaves. Very fast grower.

PRIDE OF MOBILE

Flowers watermelon pink. Mid-season bloomer. Fast grower.

PRINCE OF ORANGE

Deep orange red flowers. Blooms a little after mid-season. Spreading grower.

VARIEGATED NO. 1

Light pink with white stripes. Admired by many.

FIELDERS WHITE

Pure white flowers. Mid-season bloomer. Very hardy.

	Each	10	100
8-10 inch, C, TT, buds, B & B-----	\$.30	\$ 2.50	\$20.00
10-12 inch, C, TT, buds, B & B-----	.40	3.50	30.00
12-18 inch, C, TT, buds, B & B-----	.50	4.50	40.00
18-24 inch, C, TT, buds, B & B-----	.90	8.00	75.00

Prices on sizes larger than listed quoted on application.

AZALEA CULTURAL SUGGESTIONS

Azaleas require an acid well drained soil. Use Aluminum Sulphate to correct soils that are alkaline. Use liberal quantities of oak leaf mold or peat moss in mixing with the soil. Thoroughly wet the soil to a depth of six inches at frequent intervals, so as not to let the soil dry out. Provide small plants with partial shade for first three years. Fertilize with cotton seed meal and well rotted stable manure. Should insects attack the plant consult your County Agricultural Agent who will gladly refer you to the proper party or parties to consult about spraying.

SHRUBS

ABELIA GRANDIFLORA

Used in almost all plantings. Covered in summer with clusters of tubular shaped white flowers tinged with pink. Pinch or cut back long shoots continually if you want plant to grow dense or compact.

2-3 feet, field grown, sheared-----	\$.50	\$ 4.00
3-4 feet, field grown, sheared-----	.75	6.00
4-5 feet, field grown, sheared-----	1.00	9.00

BOXUS JAPONICA (Japanese Boxwood)

Fairly fast growing box with light green, roundish leaves.

12-15 inch, B & B-----	\$.35	\$ 3.00
15-18 inch, B & B-----	.50	4.50
18-24 inch, B & B-----	1.00	9.00
24-30 inch, B & B-----	1.50	

BOXUS SEMPERVIRENS (English Boxwood)

Slow growing compact box with deep green, pointed leaves.

	Each	10	100
8-10 inch, B & B-----	\$.35	\$ 3.00	
10-12 inch, B & B-----	.50	4.50	
12-15 inch, B & B-----	.75	6.50	
15-18 inch, B & B-----	1.00	9.00	
18-24 inch, B & B-----	1.50		

GARDENIA FLORIDA (Cape Jasmine)

Waxy white blooms which come early in the spring. Delightfully fragrant. Very thrifty grower.

18-24 inch, field grown, B & B-----	\$.40
24-30 inch, field grown, B & B-----	.60
30-36 inch, field grown, B & B-----	1.00
36-42 inch, field grown, B & B-----	1.50

HYDRANGEA

Blue. Fast Grower. Large blooms. Will be desired by most buyers.

8-12 inch-----	\$.25
12-18 inch-----	.50
18-24 inch-----	.75

LIGUSTRUM LUCIDUM COMPACTUM (Wax Privet)

Very hardy and it thrives in most any kind of soil. Indeed this seems to have been the most satisfactory plant for general planting. Our wax privet has exceptionally good color and texture of dark green foliage and compactness of bush. Can be pruned to any desired shape and size. It will pay you to examine our stock before purchasing.

8-12 inch, C. T.-----	\$.75	\$ 6.00
12-18 inch, C. T.-----	1.00	8.00
2-3 feet, field grown, B & B-----	\$.40	3.50
3-4 feet, field grown, B & B-----	.75	6.00
4-5 feet, field grown, B & B-----	1.25	

MAGNOLIA FUSCATA (Banana Shrub)

Beautiful shrub. Yellowish white blossoms of unusual sweetness, with a banana-like fragrance.

12-18 inch, field grown, B & B-----	\$.50	\$ 4.00
18-24 inch, field grown, B & B-----	.75	6.00
24-30 inch, field grown, B & B-----	1.00	

OSMANTHUS FRAGRANCE (Sweet Olive)

Well known shrub with bright glossy thick foliage and small yellowish white flowers sweetly scented. A few plants fill the air of the entire garden with fragrance during late winter and spring, and also bloom to some extent in the fall.

18-24 inch, B & B-----	\$.75	\$ 6.50
24-30 inch, B & B-----	1.00	9.00
30-36 inch, B & B-----	1.25	

PHOTINIA GLABRA (Red Top)

The new leaves are a brilliant vivid red. It may be pruned to a cone or globe shape, or any shape you desire. Suitable for individual planting, for hedges, or for planting among green leaved evergreens.

18-24 inch, B & B-----	\$.50
24-30 inch, B & B-----	.75
30-36 inch, B & B-----	1.00

PITTOSPORUM TOBIRA

Evergreen. Very dense compact growth with dark green and waxy leaves clustered at the end of the branches. Usually grows globular, but can be pruned to any desired shape. A most valuable plant for southern gardens.

	Each	10	100
8-12 inch, Lath-house grown-----		\$ 1.50	\$12.50
12-18 inch, Lath-house grown-----	\$.25	2.00	17.50
18-24 inch, Lath-house grown-----	.50	4.00	30.00
18-24 inch, Field grown, B & B-----	1.00	9.00	
24-36 inch, Field grown, B & B-----	1.25		

PODOCARPUS SINENSIS (Japanese Yew)

Leaves two or three inches long and half inch wide, looks almost like broad leaved evergreen. Prune to any desired shape. Does well in sun or shade. Light green when young. Dark green when mature. Hardy.

8-12 inch, Lath-house grown-----		\$ 1.50	\$12.50
12-18 inch, Lath-house grown-----	\$.25	2.00	17.50
18-24 inch, Lath-house grown-----	.50	4.00	30.00
18-24 inch, Field grown, B & B-----	1.00	9.00	
24-36 inch, Field grown, B & B-----	1.25		

KUDZU CROWNS—Seedling Kudzu Crowns

This splendid hay plant analyzes a little better than alfalfa, and every farm should have a planting of Kudzu. The AAA allows the farmer \$6.00 per acre for every acre of Kudzu planted. Planting the Crowns three feet apart in the row, in rows twenty one feet apart, requires approximately 700 crowns per acre. Therefore the farmer can get his money back from the AAA and have his money and his kudzu too. Your County Agent will explain this to you. Seedling Kudzu Crowns are rated worth double the value of field crowns. No order received for less than one thousand Crowns, or other than in multiples of one thousand Crowns.

Price on Seedling Kudzu Crowns is \$5.00 per thousand Crowns, f.o.b. Elmore, Ala. (We make no charge for packing Kudzu Crowns. The \$5.00 puts the Crowns on the carrier.)

These are the finest Crowns obtainable, and your customers will be well pleased with them. We have spent a number of years learning the many angles to producing fine crowns, harvesting them properly, and shipping them in good shape. This knowledge based on experience insures your customers getting good service and fine Crowns.

Where large quantities are ordered we will be glad to quote delivered prices, delivered in our own trucks.
